As soon as the call for the meeting had been read, the corresponence leading up to the matter at issue was laid before the meeting. This consisted of a letter from Mr. Walter H. Taylor, a member of the Norfolk City Committee; a letter from District Chairman C. Fonton Dey, transmitting a resolution of that committee declaring that the matter at issue between the factions in Norfolk could not be amicably adjusted by the District Committee, and urging the importance of a solution that would promote harmony and eliminate the factional fisht in the city. The nfollowed Mr. Ellyson's reply to Mr. Taylor, construing the clause of the party plan of organization applicable to the dispute. Finally Mr. Ellyson's letter to City Chairman W. W. Dey, of Norfolk, informing him that the State Central Committee is determined to take the matter up and inviting him to be present at the meeting. Mr. Dey's acknowlessment of the letter was read. LITTLE HOPE FOR **GOOD ROADS BILL**

Not Likely That Measure Will Be Adopted at Coming Session of Congress.

THE TREASURY IS VERY FLAT

Proposed Legislation for Building Up Merchant Marine Has Poor Chance.

(From Our Regular Correspondent.) WASHINGTON, D. C., August 15 .- The advocates of government construction o highways are not hopeful of securing the passage of a bill this winter looking to that method of securing good roads. Int. method of securing good rotes. It is doubtful whether a majority of the members of Congress would vote for a bill appropriating millions of dollars for this purpose, even if the Federal treasury were in a more plethoric condition than it is at present, when there is a great big hole where there should be a surplus. But it is certain that no such vaults, if for no other reason. The Lat-imer bill, for instance, provides for the appropriation of twenty-four million doiappropriation of twenty-four million dol-lars for the construction of reads. The Gallinger bill and the Brownlow bill pro-vide for about the same amount. It is useless to hope for the appropriation of so much money for roads until the condi-tion of the finances of the country is much better than at present. Though bills providing for the improve-ment of the highways by the expenditure of Federal funds have been introduced by several members of Congress in the course of the past decade, they have never received serious consideration, un-

tired and reported the following resolution:

Wherens, the party plan provides that
all "county and city committees must
be reorganized in 1901, when nominations
are made for the House of Delegates and
every two years thereafter."

And whereas, the City Committee of
the city of Norfolk has fixed the 22d day
of August, 1905, for the nomination of
members of the House of Delegates and
refused to order and provide for the reorganization of the said cit; committee
on the said 22d day
of August, and
whereas certain members of the city committee have asked the chairman of this
committee for his opinion with regard
thereto; and whereas, the said city committee should be elected on the said 22d
day of August; and whereas, the said city
committee declined to accept the
opinion of the State chairman; and where
as, after his action, the said chairman
was petitioned by civaln members of
the City committee to call a meeting of
the State Central Ct arnitee to pass upon
this question, and he preferring not to
do so, if it could he avoided, referred the

winter as they were last winter. Their forces may be somewhat divided. An organization is being formed for the purpose of securing from Congress legislation looking to the free importation of goods carried in American bottoms, or providing that goods thus brought in shall pay a much smaller duty than is paid on those carried to our ports in gessels flying foreign flags. It is claimed that Thomas Jefferson advocated this method of building up our shipping. The differential method was first used by England several centuries ago, Thore has always been a sentiment in Congress in favor eral centuries ago, There l of employing this means to revive Amer-ican shipping in preference to voting sub-sidies to American shipbuilders.
